WEATHER KEY POINTS

08/30/21 - 09/05/21

Monday-Sunday

- Southwest winds will increase Monday and Tuesday and likely lead to more widespread critical fire weather conditions across much of the higher terrain in the northern half of the state. Gusty winds may linger into Wednesday for portions of the Sierras
 - Moderate to locally high heat impacts continue across the southern half of the state on Monday before a more statewide cooldown starting Tuesday
 - Elevated to critical fire weather concerns will continue over the mountains and foothills across the northern half of the state through later this week, with areas of elevated concerns possible into next weekend with continued dry conditions.
- Isolated to widely scattered showers and thunderstorms will be possible across southern California through much of the week
 - **These showers and thunderstorms may lead to flash flooding in the Apple and Lucerne Valleys, Coachella Valley, Riverside County Mountains, San Bernardino County Mountains, San Diego County Deserts, San Diego County Mountains, San Geronio Pass Near Banning, Imperial Valley, Cadiz Basin and Morongo Basin on Tuesday.**
 - Otherwise, no precipitation is expected across the northern two thirds of the state through the next week
- Wildfire smoke will remain across portions of northern and central California, bringing reduced visibility and air quality at times
